Panel Discussion with Community Leaders

Open Forum

Open Forum

Questions

1

Are there groups or entities that we should be engaging with that you think we should be connected to?

2

What is the best avenue to communicate with you and organizations you engage with?

Open Forum

Questions

3

Where do you think conversations and resources on sustainability are lacking? Where are you currently getting information on these issues?

4

Are there existing community leaders that we should connect with that might be willing to partner with us to get this message out?

Thank You.
