WHAT WE INVEST IN

SOLAR POWER

Install solar systems to provide affordable energy, giving residents more control over their energy costs and needs.

ENERGY-EFFICIENT BUILDINGS

Upgrade new and existing buildings to be more efficient and affordable, and improve DC residents' living conditions.

CLEAN TRANSPORTATION

Transition the District's public and private transportation systems to increase efficiency, improve air quality, and boost accessibility.

RESILIENT INFRASTRUCTURE

Deliver projects that reduce the impacts of stormwater runoff, flooding, and excessive heat while increasing air and water quality.
